

## Green On The Go

Traveling in style while treading lightly on planet earth is getting more than a nod of approval, it's getting a whiplash of attention.

Eco Chic drivers will hug every curve of the Aerodynamic Apera. This cool ride plugs in at 100 mpg, has solar climate control and naturally dyed interiors. This vehicle makes drivers green with envy.

Imagination takes an extreme spin with Biondi's new bicycle. No cables, no spokes and under 6 kilograms this avant-garde bike makes an eco friendly pedal stylishly Fantastico!

No wheels--then run over to End Footwear. This high performance gear company puts into motion eco correct design right down to rice based glue and bamboo shoe tongues.
